

THE PEOPLE'S COMMITTEE OF HO CHI MINH CITY  
DEPARTMENT OF NATURAL RESOURCES AND ENVIRONMENT

# Ho Chi Minh City Developing towards Low-carbon society

- **Presenter: Tran Hong Lan**
- **Ho Chi Minh City Climate Change Bureau**

*Tokyo, June 2017*

# + Climate Change Action Plan (CCAP) for the period 2017-2020, towards 2030

## ■ Principles

- Developed with the support of Osaka City on capacity building and some mitigation projects
- Win-win solutions
- Development of the legal system on climate change
- Implementation of specific projects to mitigate climate change
- *Adaptive solutions* are based on concerted efforts of many stakeholders under the direction of city leaders

# + Climate Change Action Plan (CCAP) for the period 2017-2020, towards 2030

## ■ Objectives

- Integrate Climate Change measures into Strategies, Plans and Programs of Socio-Economic Development of HCM City with specific conditions and suitable with 2016-2020 period
- Develop and implement prioritizing programs, projects for CC adaptation and mitigation in 10 sectors
- Increase an ability of international cooperation and call for investment in CC response
- Improve international cooperation and call for investment in response to climate change Strengthen state management and efforts to GHGs reduction

# + Project to Support the Planning and Implementation of NAMAs in a MRV Manner (SPI-NAMA)

- Implemented by MONRE with JICA assistance
- HCMC is model city

Project Purpose: Capacity of the Government of Vietnam concerning the planning and implementation of NAMAs is enhanced.

Output 1: Capacity of MONRE to facilitate the process of development and implementation of NAMAs is enhanced.

***Output 2: Capacity of the line ministries and other stakeholders to plan and implement NAMAs is enhanced.***

Feedback

## Main Activities:

### 1. GHG Inventory

- Preparation of GHG Inventory of HCMC
- Development of GHG Inventory Preparation Manual

### 2. MRV of Mitigation Actions

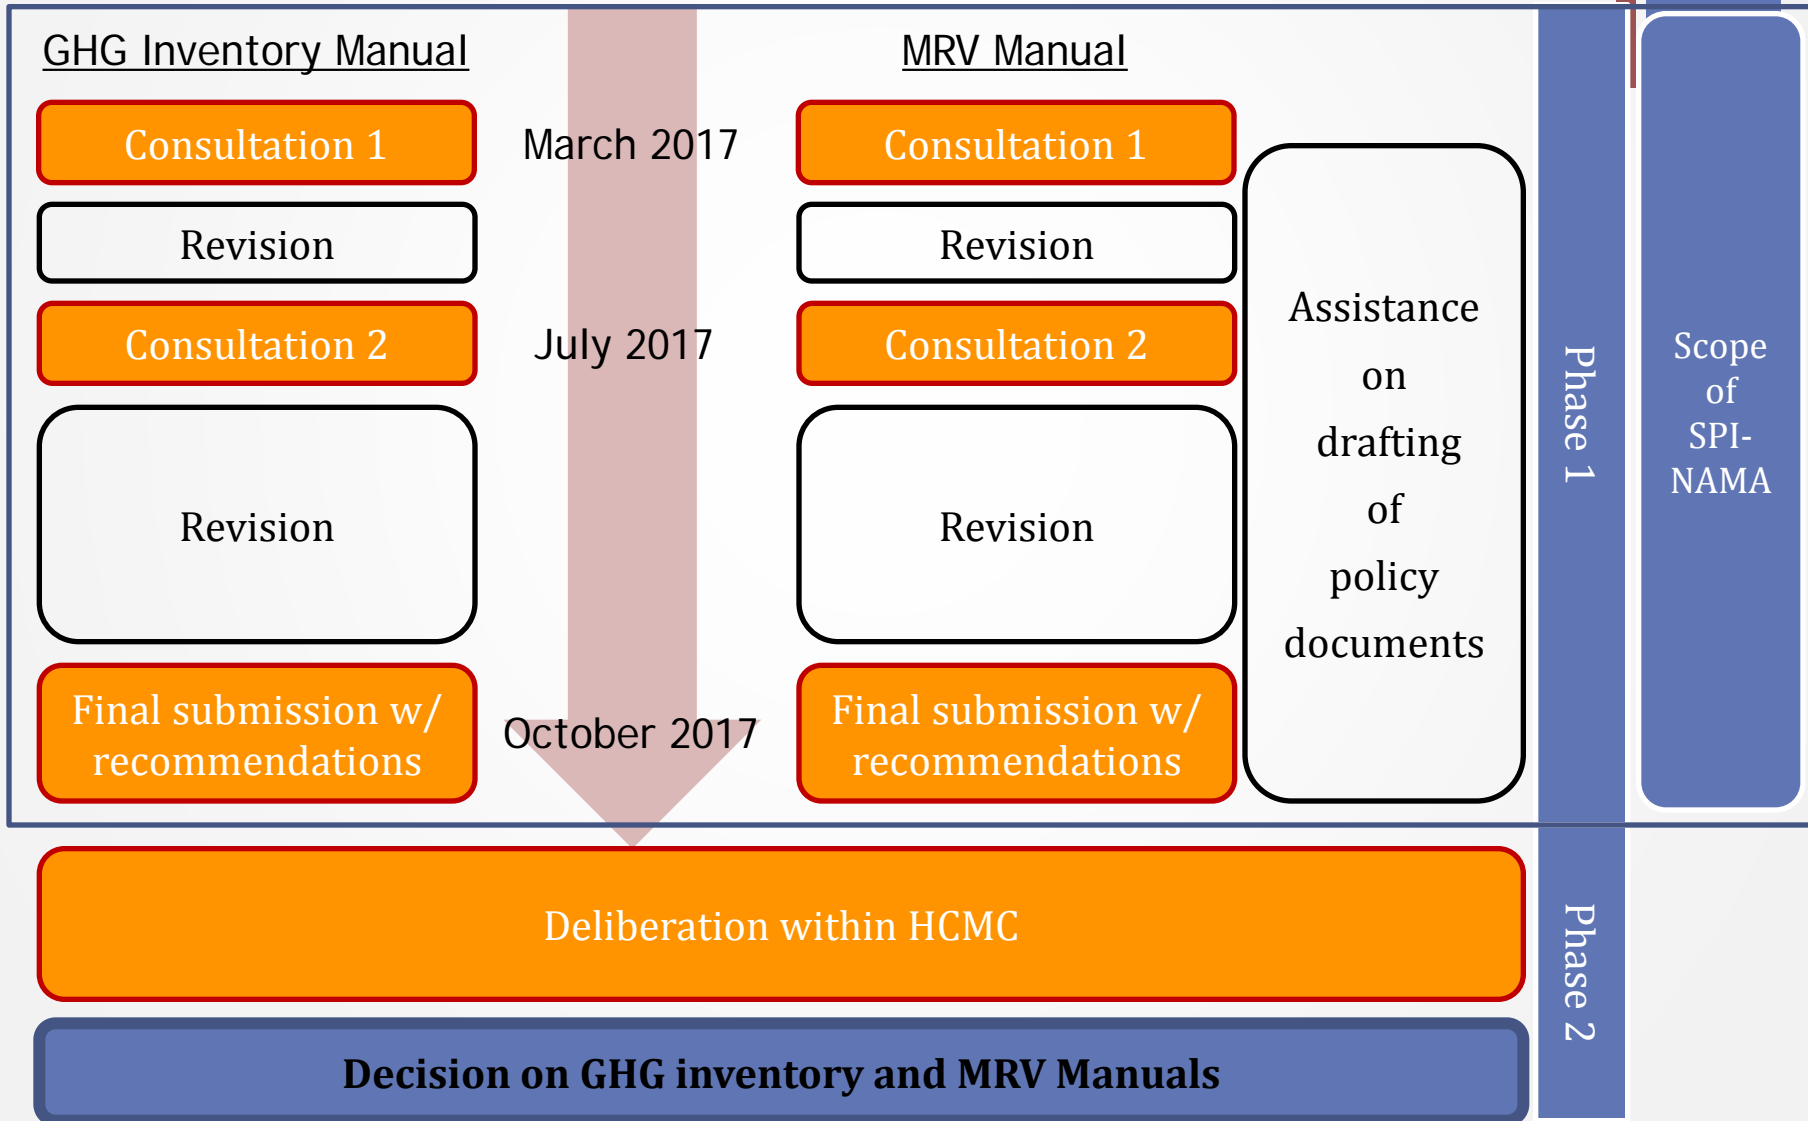

- Piloting MRV of selected mitigation measures
- Development of MRV Manual

# + SPI-NAMA

**DONRE is aiming have manuals on GHG inventory and MRV adopted as official technical guiding documents to encourage quantification of GHG emissions and emission reductions, and promote mitigation actions in HCMC**

# + HCMC's plan towards low-carbon society

## Short-term

- Raise public awareness on CC response
- Improve the state management capacity in responding to climate change
- Issue the GHG Inventory Preparation Manual and MRV Manual for Ho Chi Minh City as an example for other cities

## Medium-term

- Implement mitigation projects proposed in the CCAP
- Develop city-level GHGs inventory system and MRV procedures
- Adopt low-carbon technologies on energy, transport, waste for public use

## Long-term

- Develop ETS
- Develop legal framework on MRV, GHG Inventory and GHG reduction
- Call for Investment to implement infrastructure-development / adaptation measures
- Wide-spread adoption of low-carbon technologies

Thank you for your attention
